

# Preschool at OLV

## A nurturing place for young learners

### LEARNING

We use a play-based approach, incorporating lessons in early literacy, STEM, religion and music.

Hands-on learning encourages a growth mind-set, supports developmental needs, and builds social skills.

Our teachers enjoy seeing the students make friends and develop an enthusiasm for learning.

### BUDDIES

Our Buddy Program pairs older students with younger students for activities that are fun and often service-oriented. Students love this time together! The interaction and friendship between them is very special.

### THE OLV COMMUNITY

In the words of our school parents:  
“This is truly a family environment!”

“We are so appreciative of the warm, supportive environment that OLV has created for our children.”
